

Request for Research Data and/or Resources

Please prepare a separate typed statement for the below Nature of Research items. All information must be completed in order for the request to be considered.

Nature of the Research

- Study Hypothesis & Specific Aims:

- Background Statement & Significance of Hypothesis:

- Data being requested:

- Proposed Methods of Analysis:

- Definitions of Main Variables:

Request for Research Data and/or Resources

Please type in the fields provided under the Investigator information. All information must be completed in order for the request to be considered.

Investigator Information

Lead Investigator:

Sponsoring Organization (Name, Address, Website):

Sub Investigator A:

Sub Investigator B:

Sub Investigator C:

Sub Investigator D:

Contact Person for project (if different than PI)

Contact e-mail:

Contact phone:

Expected timeline for Project Completion:

Please note that any data authorized for a research paper requires the final product to be submitted to the Research Advisory Committee (RAC) for review prior to submitting the paper for publishing. This review is to ensure that our data is presented accurately. RAC will approve by a majority vote papers that present the Prism data correctly.

There will be a fee for service for data capture and transmission. *(No fees will be transacted until reviewed and agreed upon.)*

By signing below, I agree:

- to submit the final research paper in its entirety to the RAC for review prior to submitting for publishing
- to submit the final research paper for publishing only after receiving approval to do so from the RAC
- to provide prompt payment for fees associated with data capture and transmission
- to accept the authorship acknowledgement terms
- to destroy the data and any generated analysis files provided by ProCare Research, LLC, once research is completed
